

AUTOMATED EXTERNAL DEFIBRILLATOR - INITIAL

This initial course is for anyone who has purchased a defibrillator and requires training on how to use the device and how to perform Basic Life Support.

Course length: 3 hours

Max. number of delegates: 12

Topics covered:

- * Assessing a scene
- * Casualty assessment
 - * Response
 - * Airway
 - * Breathing
- * Assisting the ambulance service
- * Cardio Pulmonary Resuscitation
 - * Adult
 - * Paediatric
- * Using first aid equipment
- * Unconsciousness
- * Infection control
- * Incident reporting & record keeping
- * How to operate an AED safely
- * Help setting up your live AED

We provide professional CPR manikins which provide a realistic chest compression and ventilation experience, with real-time feedback on rate and depth of compressions. Every delegate receives a face shield to ensure maximum infection prevention. Algorithm hand-outs are provided and available to download from our website.
