

IMMEDIATE LIFE SUPPORT

Our ILS course has been developed in order to standardise much of the in-hospital training undertaken already by Resuscitation Officers. Its aim is to train healthcare personnel in cardiopulmonary resuscitation, simple airway management and safe defibrillation (AED), enabling them to manage patients in cardiac arrest until arrival of a cardiac arrest team and to participate as members of that

Course length: 1 day (6.5 hours)

Max. number of delegates: 12

Topics covered:

- * Causes and prevention of cardio respiratory arrest
- * ABCDE approach
- * Initial resuscitation and defibrillation (AED)
- * Airway management
- * Targeted training
- * Cardiac arrest scenarios

This course has been designed in accordance with Resuscitation Council UK guidelines and meets the requirements of NHS and private healthcare providers.
